Our school strategies are showing substantial progress toward our targets

After reviewing our *Great Results Guarantee* agreement, it is clear that we have made progress toward our targeted student outcomes. We will continue to focus on maximising the benefits of this funding for our students, and adjust our strategies as needed to ensure every student succeeds.

Strategies implemented include:

- increasing teachers' repertoire of effective strategies for teaching text processing and comprehension
- Improving Student:Teacher ratios during early years literacy lessons to allow for targeted learning
- Better preparing and supporting teacher aides to consolidate student learning in literacy
- Developing collaborative data inquiry processes (to build teachers' ability to interpret data, identify and scale-up effective teaching practices and differentiate better)
- Providing focused and intensive teaching for those students requiring additional support to demonstrate year-level achievement standards *and* build teacher capability in (i) determining the different year-level curriculum some students require and (ii) developing and successfully implementing ambitious but achievable individual curriculum plans
- Accessing appropriate resources and building teacher capability to use technology to differentiate and improve learning
